	L-M	25	25	25	15	15

These indications should only be used as guidelines. Large stones are very thinly traded, and prices may vary significantly from dealer to dealer and stone to stone. Availability of large, better-quality stones may be limited, and buyers may find that asking prices and/or transaction prices may be significantly higher or lower than these price indications. This price information should only be used as a general indication of the current market.
